Next Steps

As part of our ongoing GNOSIS training, we are requesting reassessment (with completion of your Learning Path) for the Fetal Assessment and Monitoring course by **April 30, 2018**. Please ensure that you are reserving uninterrupted time prior to beginning each section of the assessment. Reassessment allows you to quantify your improvement over time. Your first assessment results can be accessed by clicking your My Scores tab in your top navigation bar. Once reassessment is complete, you can see in one view the progress you have made, comparing your first assessment score to your second.

**Instructions on How to Relaunch the Assessment**

1. Launch GNOSIS by visiting [www.mygnosis.com](http://www.mygnosis.com).
2. Log into GNOSIS with your e-mail address and password. (If you forgot your password please select the “I forgot my password” link on the login screen.)
3. Select the red **Start Assessment** option next to the desired course. If your Dashboard displays a **Continue Learning Path** button instead of the **Start Assessment** option, please complete your remaining reds and yellows in your Learning Path. Once complete, you will be able to reassess from your Dashboard.

4. Complete all sections of the Assessment *and* the red and yellow segments in your Learning Path.
5. You can earn additional credit hours for completion of this course (a maximum of 8 hours).

If you require additional assistance or are experiencing technical issues, please contact Customer Support at [gnosis@reliaslearning.com](mailto:gnosis@reliaslearning.com).
