

BETA Healthcare Group promotes a holistic approach to reducing harm in healthcare. BETA HEART® (healing, empathy, accountability, resolution and trust) is a coordinated effort designed to guide member healthcare organizations in implementing a reliable and sustainable culture of safety grounded in a philosophy of transparency. The overall goals of the program are to develop an empathic and clinically appropriate process that supports healing of both the patient and clinician after an adverse event; ensure accountability for the development of reliable systems that support the provision of safe care; provide a mechanism for early, ethical resolution when harm occurs as a result of medical error or inappropriate care; and instill trust in all clinicians and patients.

BETA HEART, a multi-year program is an interactive and collaborative process which supports the organization, its' staff and patients.

Incentive Structure

Each of the five domains that are successfully implemented qualifies for 2% renewal premium credit up to 10% annually. Members and insureds that formally opt-in and commit to implementing all five domains will be considered a BETA HEART organization and will be entitled to special benefits. Credits will be applied at the following year's policy renewal, after the successful completion of each domain's subcomponents as described in the BETA HEART Guideline and as validated by a BETA Risk Director.

An overview of each domain is listed below:

| Domain | Overview | Incentive/ Renewal Credit |
|--|---|------------------------------|
| Culture of Safety | A process for measuring safety culture and staff engagement | 2% |
| Rapid Event Response and Analysis | A formalized process for early identification and rapid response to adverse events that includes an investigatory process that integrates human factors and systems analysis while applying Just Culture principles | 2% |
| Communication and Transparency | A commitment to honest and transparent communication with patients and family members after an adverse event | 2% |
| Care for the Caregiver | An organizational program that ensures support for caregivers involved in an adverse event | 2% |
| Early Resolution | A process for early resolution when harm is deemed the result of inappropriate care or medical error | 2% |
| Total Potential Renewal Premium Credits | | 10% |

The BETA HEART Guideline outlines all domain criteria and requirements.
